Subscriber will notify Licensor by August 1 of its intent to continue to purchase print at a DDP. Licensor will formally notify these agents within fifteen (15) days of notification from Subscriber of its intent to purchase print at DDP pricing. Licensor will advise agents in writing of Subscriber's DDP status and provide written proof to Subscriber that notification has occurred. Licensor will provide an accurate list of titles subject to DDP along with their respective DDP price to subscription agents by December 1 prior to the subscription year.

Annex A-1 to Schedule 5 ScienceDirect Online Archival Access Policy

NOTE: The Licensor represents and warrants to the Subscriber that the Licensor and certain of its affiliated companies (collectively, Elsevier) have agreed mutually that the Licensor will provide the archival access described below.

Basic Policy

1. A digital archive of the journals that Elsevier owns and that the Licensor makes available electronically on the ScienceDirect online service (Elsevier Journals) will be maintained. The archival files are intended to be maintained in perpetuity, with their format converted as appropriate if the technology used for storage or access changes. The current format standards are SGML and PDF and most files are being retained in both formats.
2. The Licensor understands that the permanent availability of these archival files is of critical concern to its subscribers. Therefore, it makes the commitment that, in the unlikely event that it cannot assume the responsibility for maintaining the archive, it will arrange to transfer the archive to one or more depositories mutually acceptable to Elsevier and an independent board of library advisors.
3. The Licensor is authorized to electronically distribute many journals owned by third parties (such as scientific societies). To the extent the Licensor has the right to do so, these journals will be made available as Licensed Products; and to the extent the electronic versions of such journals are in appropriate technical format, the Licensor will maintain them in its digital archives in the same manner in which it maintains the Elsevier Journals. Should Elsevier cease to be the publisher for such a journal or cease to have electronic rights, Elsevier has agreed that it will use reasonable efforts to ensure that either the volumes published by it remain available through the ScienceDirect online service or that the owner makes them available.
4. If ownership of an Elsevier Journal is sold or otherwise transferred to another publisher, the Licensor will use reasonable efforts to retain a non-exclusive copy of the volumes published and make them available through the ScienceDirect online service to existing subscribers.
5. If the Elsevier Journal ceases to be published, the digital archive will be maintained and be made available through the ScienceDirect online service.
6. In the event that a journal must be removed from the ScienceDirect online service of journals due to the reasons noted in paragraphs 3 and 4 above, Subscribers will be offered the option to receive electronic copies of such journal, consistent with the procedure described in paragraph 9 below. There may be a limited number of exceptions to this policy, should Licensor or its licensor be unable to obtain the necessary electronic rights to do so from the journal's owner, or because of technical incompatibility, but every effort will be made to have 100% compliance.

Access Terms

7. A Subscriber pays an annual (calendar year) fee for access and usage privileges (as described herein) to the Licensed Products, including the right to continued access for as long as the Subscriber remains a current ScienceDirect online service subscriber.
8. If Subscriber does not renew its electronic subscription to a particular journal title in the Licensed Products, but nonetheless remains a ScienceDirect online service subscriber, Subscriber's access to the lapsed title is limited to the Publication Year for which Subscriber paid a fee for an electronic subscription.
9. If Subscriber's Agreement with Licensor expires, is not renewed or is terminated by Subscriber or by Licensor (except for violation of Subscriber's obligations under the Agreement), Subscriber may, at its option, acquire electronic archival copies of all or part of the Licensed Products that are still made available through the ScienceDirect online service for the Publication Year for which Subscriber paid for an electronic subscription (including backfile rights), provided that Subscriber defrays the costs of preparing the data set sought, subject to the limitations noted above for journals owned by third parties. In such circumstances, terms and conditions will continue to be as set forth in this Agreement. The electronic archival copies will contain all textual content of the relevant Licensed Products but may not contain all links and other features and functionality associated with the online version available to current ScienceDirect online service subscribers.

Annex A-3 to Schedule 5

Cell Press Online Archival Access Policy

NOTE: The archival access policy described below is included for reference only and applies only to the journals owned, published and made available electronically by Cell Press, an imprint of Elsevier Inc. ("Cell Press Journals"). The Licensor represents and warrants to the Subscriber that the Licensor and Elsevier Inc. have agreed mutually that the Licensor will provide the archival access described below

1. A digital archive of the Cell Press Journals will be maintained. The archival files are intended to be maintained in perpetuity, with their format converted as appropriate if the technology used for storage or access changes. The current format standards are SGML and PDF and most files are being retained in both formats.
2. The Licensor understands that the permanent availability of these archival files is of critical concern to its Cell Press Online subscribers. Therefore, it makes the commitment that, in the unlikely event that neither it nor Elsevier Inc. can assume the responsibility for maintaining the archive, it will arrange to transfer the archive to one or more depositories mutually acceptable to Elsevier Inc. and an independent board of library advisors.
3. Elsevier Inc. cannot guarantee electronic availability of Cell Press Journals that it no longer owns or publishes. Should Elsevier Inc. sell or otherwise transfer ownership or cease to publish or have electronic rights to any Cell Press Journal, Elsevier Inc. will use reasonable efforts to retain a non-exclusive electronic copy of the issues that it published and ensure that such issues remain available electronically to existing subscribers or that the new owner makes them available electronically on the same access terms via a new host.
4. If the Subscriber's Agreement with the Licensor expires, is not renewed or is terminated by the Subscriber or by the Licensor (except for violation of the Subscriber's obligations under the Agreement), or Elsevier Inc. no longer makes a Cell Press Journal available electronically, the Subscriber may, at its option, acquire electronic archival copies of all or part of the Cell Press Journals that are still made available electronically for which the Subscriber paid for an electronic subscription, provided that the Subscriber defrays the costs of preparing the data set sought. In such circumstances, terms and conditions will continue to be as set forth in the Agreement. The electronic archival copies will contain all textual content of the relevant Cell Press Journals but may not contain all links and other features associated with the online version available to current Cell Press Online service subscribers. There may be exceptions to this policy, should Elsevier Inc. be unable to obtain the necessary electronic rights or because of technical incompatibility, but Elsevier Inc. will use reasonable efforts to comply fully with this policy.
