

LICENSE AGREEMENT

LICENSE DETAILS:

Quote ID: Q-126690/CDL-2407436

MYDL ID: N/A

Licensee: Regents of the University of California, a non-profit academic institution, with its principal offices at:
California Digital Library

Primary Address: California Digital Library, Office of the President, 1111 Franklin Street, Oakland, CA 94607,
USA

This License Agreement between Springer Nature Customer Service Center LLC, 1 New York Plaza, Suite 4600, New York, New York, 10004-1562, USA ("Licensor") and Licensee (for itself, and if applicable, on behalf of the Participating Institutions listed in Attachment 1) incorporates the following documents:

- This License Details page including Attachment 1: Licensee and Participating Institutions Information;
- The Product Terms;
- The General Terms and Conditions attached to the License Agreement with License ID 77882.01.00.;
- Schedule 2 Perpetual Access Journals;
- Schedule 3: Fully Open Access Journals
- Schedule 4: Hybrid Journals
- Schedule 5: 2025 Licensee Price Fully OA Journals APCs
- Schedule 6: 2025 Licensee Price Hybrid Journals APCs

When executed by both parties, this License Agreement shall be deemed effective on the earlier of: (i) the earliest Commencement Date for any Product licensed hereunder, or (ii) the last date of signature by Licensor or Licensee.

- Legal Entity Name: University of California, San Diego
- Address: 9500 Gilman Dr, La Jolla, CA 92093-5004, USA
- Business Partner ID: [REDACTED]
- Legal Entity Name: University of California, San Francisco
- Address: 530 Parnassus Ave, San Francisco, CA 94143, USA
- Business Partner ID: [REDACTED]

- Legal Entity Name: University of California, Santa Barbara
- Address: Accounting Office Room 3201, Santa Barbara, CA 93106, USA
- Business Partner ID: [REDACTED]
- Legal Entity Name: University of California, Santa Cruz
- Address: 1156 High St, Santa Cruz, CA 95064, USA
- Business Partner ID: [REDACTED]
- Legal Entity Name: Lawrence Berkeley National Laboratory
- Address: 1 Cyclotron Rd, Berkeley, CA 94720, USA
- Business Partner ID: [REDACTED]

Licensee and Participating Institutions will supply Licensor with an initial list of its IP addresses used for the access to the Content (if not already supplied to Licensor) prior to the Commencement Date, and shall notify Licensor of any IP address changes. Licensor reserves the right to confirm accuracy of the IP address(es) supplied before grant of access. Notwithstanding anything to the contrary in this License Agreement, notifications of IP address changes may be made in electronic format. Licensor's obligation to timely provide access to the Content under this License Agreement is conditioned on Licensee's provision of its IP addresses.

Licensee represents that neither Licensee nor any Participating Institution is currently the subject or target of any sanctions imposed by the sanctions authority of any government and agrees that it will not supply Licensor with any IP Address that may provide access to the Content to any entity or person when it has reason to believe providing such access would, or is likely to, violate applicable sanctions. Licensor may unilaterally terminate this License Agreement, either in whole or with respect to a particular Licensee, with immediate effect on written notice if Licensor has reasonable grounds to believe that either (i) Licensee is in breach of that representation or (ii) Licensor may violate applicable sanctions by the provision of access to Content under the License Agreement due to a change in law or the placement of an entity or person on a sanctions black list.

Licensor works with various third-party scholarly platforms to enhance Authorized Users' access to certain Content. For authentication and authorization purposes only, Licensor may provide Licensee's institutional IP range and entitlements to such third party providers. Usage restrictions contained in this License Agreement apply to Authorized Users' access to and use of the Content regardless of the platform on which the Content is accessed.

Except as explicitly stated in this Agreement or otherwise permitted in writing by Licensor as an amendment to this License Agreement, or as permitted by any Creative Commons licenses or public domain dedications applied to the Content, Licensee and its Authorized Users may not:

- (i) directly or indirectly develop, train, program, improve, and/or enrich any artificial intelligence tool ("AI Tool"), whether developed internally or provided by a third party, unless: (a) doing so with reasonable information security standards to undertake, mount, load, or integrate the Content on Licensee's or Authorized Users' servers or equipment, and (b) no Content or any part thereof is shared with anyone other than Licensee and its Authorized Users; and
- (ii) in the case of third-party generative artificial intelligence tools, train or fine-tune any such tool (including an algorithm) unless: (a) doing so locally in a self-hosted or closed hosted environment solely for use by Licensee or Authorized Users, and (b) none of the third-

party generative artificial intelligence tool, its data, or the Content is shared with anyone other than Licensee or its Authorized Users

In no case may Licensee or its Authorized Users use the Content in connection with an AI Tool, including to train or fine-tune any such tool, to: create a competing or commercial product or service; disrupt the functionality of the Content or the Platform; or reproduce or redistribute the Content or any part thereof to a third party.

Subject to the restrictions set forth in this Agreement and all applicable laws, use of the Content in connection with AI Tools by Licensee and Authorized Users is permitted.

Licensee acknowledges and accepts that Licenser extends no representations or warranties, whether express or implied, as to the legality or non-infringement of using Content in connection with an AI Tool.

In the event a court of final jurisdiction in the United States determines that Fair Use (as defined in US Code Title 17 Section 107) of AI Tools encompasses broader uses than the limitations set forth in this paragraph, the parties agree to negotiate in good faith a revision of this Section.

In deviation to Section 10.4 of the General Terms and Conditions, Licenser may send the proposed modification(s) to the License Agreement via email provided, however, such modifications do not amend, or seek to amend, the License Fee(s). Acceptable modifications that may be sent via email are limited to (i) change(s) to the Content; (ii) removal or addition of Licensee(s); or (iii) update(s) to the Licensee or Licensee's address or contact details. Licenser shall confirm acknowledgement and agreement to such email modification by return email.

Product Terms
Springer Open Access Publishing Agreement

The following sets forth the legal and economic framework to allow: (a) Eligible Authors from Participating Institutions to publish open access articles in the Fully Open Access and Hybrid Journals covered by these Product Terms, and (b) access to the Content defined below.

Licensor will provide (i) the Publishing Services to Licensee for the benefit of Eligible Authors of the Participating Institutions and (ii) access and, to the extent set out in the relevant section of these Product Terms, perpetual rights to the Content by the Authorized Users of Participating Institutions. Licensee is paying the Fees in consideration of Licensor's provision of such Publishing Services and access and, to the extent set out in the relevant section of these Product Terms, perpetual rights to the Content.

*For clarity: The fees charged for Part A – OPEN ACCESS PUBLISHING" are fees solely related to services, and not to a provision of a license to content.

Paragraph 2 of section 7.3 of the General Terms and Conditions shall not apply to these Product Terms and shall be replaced by the following text: Licensee may opt out of these Product Terms without penalty due to material financial hardship by giving Licensor written notice of termination (including the reasons for opting-out) as soon as is reasonably possible, but in any case, no less than 30 days prior to the end of any year of the Term, effective as of the end of the current year of the Term. After the end of the current year of the Term, final calculations shall be made under Section 4.2 and Section 8 below, and payments shall be made for the final effective year of the Term, as they would if these Product Terms had not been terminated.

In addition, in the event of early termination permitted by this License Agreement for a material breach by the Licensor as set out in section 7.6 of the General Terms and Conditions, Licensor and Licensee shall endeavor for a period of 30 days after Licensee's notice of termination to finish all pending matters related to the Publishing Services of these Product Terms. After that period, the parties will discuss in good faith how to calculate any remaining payments or refunds to be made by either party in order to pay for the portion of the Publishing Services and provision of access to Content that were carried out under these Product Terms.

These Product Terms incorporate the following Schedules:

- Schedule 1: Payment of Fees and Invoicing
- Schedule 2: Perpetual Access Journals
- Schedule 3: Fully Open Access Journals
- Schedule 4: Hybrid Journals
- Schedule 5: 2025 Licensee Price Fully OA Journals APCs
- Schedule 6: 2025 Licensee Price Hybrid Journals APCs

1. Term

The Term shall begin on January 1st, 2025 (the "Commencement Date") and shall end on December 31st, 2027.

PART A – OPEN ACCESS PUBLISHING

2. Definitions

2.1 The following terms shall have the following meanings when used within these Product Terms, and shall apply in addition to the definitions in this License Agreement:

- 2.1.1 **"Acceptance Date"** means the date on which the Eligible Article has been editorially accepted for publication in a Springer Fully Open Access or Hybrid Journal.
- 2.1.2 **"Affiliated Corresponding Authors"**: means authors who are full or part time employees (including faculty, staff, and independent contractors) or students of Participating Institutions. In the case of articles published by multiple authors, only the author corresponding with the Licensor at the time of acceptance qualifies as an Affiliated Corresponding Author
- 2.1.3 **"Approval Date"** means the date on which it is confirmed, pursuant to Section 3.4.3, that an author is an Affiliated Corresponding Author.
- 2.1.4 **"Article Processing Charge" ("APC")** means the Licensor's charge for Publishing Services rendered in connection with publishing an open access article in the applicable Fully Open Access or Hybrid Journal, as specified in Schedules 5 and 6..
- 2.1.5 **"Content"** means, for the purposes of these Product Terms, the Perpetual Access Journals.
- 2.1.6 **"Eligible Articles"** means articles by Eligible Authors which are editorially accepted for publication in a Fully Open Access or Hybrid Journal, with an Approval Date during the Term. In order to be considered for publication in a Fully Open Access or Hybrid Journal an article must (i) be original, (ii) not violate any law and/or infringe third party rights, (iii) meet all ethical standards as required in the current guidelines of the Committee for Publication Ethics (COPE) and other policies of Licensor or the relevant journal, and (iv) be one of the following article types ("Article Types"). The parties may agree in writing, during the Term of the Agreement, to add other Article Types to the definition of Eligible Articles.
- Original Paper – Standard article, generally presenting new results which may also be referred to as Original Research,
- Original Article, Original Paper or Research Paper.
- Review Paper – Standard article, interpreting previously published results.
- Brief Communication – Short article submitted for rapid publication that exhibits the same structure as a standard article.
- Continuing Education – Article forming integral part of further education (usually medical).
- 2.1.7 **"Eligible Authors"**. means Affiliated Corresponding Authors who have (i) signed one of the then current open access publishing agreements used by the publisher of the Fully Open Access Journal or Hybrid Journal to which the author is submitting an article for publication under an Open Access License; and (ii) for whom a Verifying Institution has confirmed their status as an Affiliated Corresponding Author pursuant to Section 3.4.3.
- 2.1.8 **"Fees"** under these Product Terms shall refer to any payments owed by Licensee to Licensor towards the Fully Open Access Spend, Hybrid Spend, and Reading Fee.
- 2.1.9 **"Fully Open Access Journals"** means the journals identified as Fully Open Access Journals in Schedule 3, including Take-Over Journals and New Start Journals as defined in that Schedule. Currently, the Fully Open Access Journals includes only Springer and BMC Fully Open Access Journals ("Springer and BMC Fully Open Access Journals"). Should the parties agree to add other Fully Open Access Journal imprints during the Agreement Term, such imprints may be subject to different APCs and other terms, which will be defined via amendment. The list of Fully Open Access Journals is subject to change by Licensor. For clarity, fully sponsored journals (like SCOAP3), where the entity pays all APC's for publishing, are not part of, and not listed in the Fully Open Access Journal list.

- 2.1.10 “Fully Open Access Spend” means all payments made by Licensee towards APCs (whether under Partial Coverage or under Full Coverage) for articles published by Eligible Authors in Fully Open Access Journals with Approval Dates in one calendar year of the Term. Fully Open Access Spend shall not include the APC Remainder if paid by authors.
- 2.1.11 “Hybrid Spend” means all payments made by Licensee towards APCs (whether under Partial Coverage or Full Coverage) for articles published by Eligible Authors in Hybrid Journals with Approval Dates in one calendar year of the Term. Hybrid Spend shall not include the APC Remainder if paid by authors.
- 2.1.12 “Hybrid Journals” means the Adis, Apress, Birkhäuser, co-published with Springer, Humana Press, J.B. Metzler, Springer Spektrum, Springer Vieweg, Springer Medizin, Hebrew University Magnes Press, Serdi-Edition, Palgrave Macmillan, Springer, Springer Gabler, Springer Nature, Springer Vienna and Springer VS, journals, as well as hybrid Academic Journals on nature.com, identified as Springer Hybrid Journals in Schedule 4. The list of Hybrid Journals is subject to revision and change by Licensor, including but not limited to when new journals are founded or acquired and added to the Hybrid Journals, or when journals are transferred, or the publishing of journals ceases. Addition of new imprints requires mutual agreement of Licensor and Licensee. Any such changes to the list of Hybrid Journals by Licensor or the agreement to add new imprints can be made or agreed via email (Section 10.4 2nd sentence of the General Terms and Conditions does not apply).
- 2.1.13 “Multi-payer Model” means that Affiliated Corresponding Authors, as part of the verification process, will represent whether or not they have funds to cover APC charges. Based on this representation, they will select a “Fee Model”, which is the payment model through which the Licensee and/or the Eligible Author pays the APC to Licensor, and includes the following two models:
- 2.1.13.1 “Partial Coverage ” means that the Licensee pays the first USD \$1000 of the APC and the Eligible Author pays the remainder of the APC, whether paid for by him or herself or by another entity. Under this model, the amount paid for by the Licensee is called the “Licensee APC Portion,” and the amount paid for by the Eligible Author or the other entity is called the “APC Remainder.” The amount of the Licensee APC Portion may be changed by Licensee once during the term of this Agreement, at the shift of the calendar year, with 30 days prior written notice to Licensor, unless a different timetable is mutually agreed upon; provided however, if the change affects any of the fee control mechanisms set forth in Part C of this Agreement, including without limitation the amount of the Reading Fee to be paid, then the change shall not be made without Licensor’s prior written consent. The Licensee APC Portion will be the same for all articles.
- 2.1.13.2 “Full Coverage” means that the Licensee pays the entire APC. The Affiliated Corresponding Author will select this model only if he or she represents that he or she does not have funds to cover the APC Remainder.
- 2.1.14 “**Non-Standard Journals**” means the journals which are not published in Licensor’s standard publications workflow, and/or in which respect Licensor does not control the publication workflow and/or the terms and conditions under which such journals are published. Non-Standard Journals are marked accordingly in the list of Springer Hybrid Journals, but Licensor may change the designation of journals from time to time during the Term.
- 2.1.15 “.**Open Access License**” means a Creative Commons license (or other open access license approved by Springer Nature in order to enable publication, for example on the grounds that it is required by law, by an author’s research funder or employer, or by the requirements of a Non-Standard Journal) used for the publishing of Eligible Articles in Fully Open Access and Hybrid Journals. The default license for Licensee’s Affiliated Corresponding Authors in this License Agreement shall be CC BY 4.0, with the exception of those Hybrid Journals that publish only under CC BY-NC 4.0. Licensor reserves the right to change the Open Access License to another type of open access license, but will not change the license to a type of open access license that is (i) more restrictive in terms of reuse, (ii) is

not machine-readable, or (iii) is not industry-standard. In addition, should Licensor make a material change to its Open Access Licenses, Licensor will notify Licensee within a reasonable amount of time before doing so.

2.1.16. “Perpetual Access Journals” means the journals listed as Perpetual Access Journals in Schedule 2. The list of Perpetual Access Journals is subject to change by Licensor. “Perpetual Access Journals” means the journals listed as Perpetual Access Journals in Schedule 2, including Take-Over Journals and New Start Journals as defined in that Schedule

2.1. 16 “**Platforms**” means, for the purpose of these Product Terms, a) Licensor’s systems used to provide the Publishing Services, and b) Licensor’s websites and other content delivery systems used by Licensee and Authorized Users to access Licensor’s content pursuant to this License Agreement.

2.1. 17 “**Publishing Services**” means Licensor’s services covered by the standard list price article processing charge at the relevant Springer Hybrid Journal procured by Licensee for the publication of an Eligible Article. Publishing Services include a) pre-publishing services, which may include managing the publishing process, the provision of online tools for editors and authors, article review, copy-editing, typesetting and formatting, production and hosting, liaising with abstracting and indexing services, and customer services, as per the applicable workflows at the relevant journal, and identification and verification of Eligible Authors, and b) (subject to the Eligible Author agreeing to the journal publisher’s publishing terms, and subject to these Product Terms), procuring the publication of the Eligible Article in a Springer Hybrid Journal.

2.1.18 **Total Licensee Spend**” shall include, for a particular calendar year of the Term, the Fully Open Access Spend, the Hybrid Spend, and the Reading Fee (as set forth in Part B below).

2.1. 19 “**Verifying Institution**” means the legal entity obligated under this License Agreement to verify whether an author is an Affiliated Corresponding Author under Section 3.4.3.

Licensee, for articles submitted by its Affiliated Corresponding Authors is the Verifying Institution.

2.1.20 “**2025 Licensee Price**” means price applied for Licensee in 2024 with applicable defined annual caps for 2025 as follows: 2% for Hybrid Journals and 3.5% for Fully Open Access Journals.

3. Open Access Publishing

Open access publishing by Affiliated Corresponding Authors during the Term will be conducted under the Multi-payer Model for both Fully Open Access and Hybrid Journals, including the Non Standard Journals,. Publication will be in accordance with the procedures set forth in Sections 3.1-3.4 below. APCs for Fully Open Access and Hybrid Journals will be as set forth in Section 4.

Licensor and Licensee desire to improve the open access publishing processes for Eligible Authors, particularly identification, verification and the Multi-payer Model aspects, and agree to mutually discuss suggestions related to such improvements (for example ROR) and adopt such improvements as the parties may mutually agree.

3.1 Publication of Eligible Articles

3.1.1 Generally, Eligible Authors will retain copyright in the Eligible Article, subject to certain exceptions (including, but not limited to, articles published in Non-Standard Journals, or if requested by the author, and/or otherwise required by law or third parties (such as funding bodies)).

3.1.2 Licensor will report to Licensee the Eligible Articles on a monthly basis. The reports shall include the following details:

- Name of journal
- Article title

- DOI of article
- Article Type (as defined in the definition of Eligible Article)
- Name of Eligible Author
- online publication date (if available) and first
- Acceptance Date (if available)
- Type of Open Access license
- Journal access type (e.g. hybrid, subscription, gold)
- Article Open Access type (e.g. hybrid, gold, closed)
- Corresponding author email
- Grant ID (if available)
- Submission date (if available)
- Approval by [indicate Verifying Institution]
- Fee model
- List-price APC
- Licensee-specific APC
- Institutional Share (i.e. APC share paid by Licensee)
- Author Share (if author has chosen the Partial Coverage model)
- Reason for Full Coverage (if author has chosen the Full Coverage model)
- “Funder Name” as entered by Eligible Author at point of submission of article and CrossRef funder ID, if available. For clarity, in case the author selected the standardized funder name based on CrossRef’s funder registry, the standardized funder ID name will be reported as Funder Name.

In addition, Licensors will report to Licensee monthly, information on accepted articles by authors who self-identify as associated with Licensee who elect not to publish their articles on an open access basis. Such reporting will take place only after the relevant articles are published, shall include:

- Name of journal
- Springer Nature journal number
- Journal ISSN
- Article title
- DOI of article
- Article Type
- Name of author
- Author’s reported affiliation
- Affiliated Corresponding Author ORCID ID (if available)

Licensors may change the means to provide the reports under this Section and make the reports available for download by Licensee on the Platforms.

Additional details may be included in the reports as mutually agreed between Licensors and Licensee. Licensors may change the means to provide the reports under this Section as long as Licensors’ ability to meet the reporting requirement is not materially affected.

3.1.3 Article processing charges for any article submitted to Licensors from an Affiliated Corresponding Author and published under an Open Access License, which is not an Eligible Article will not be charged to Licensee and will be charged separately to the Affiliated Corresponding Author under Licensors’ standard process.

3.1.4, If Licensee defaults with respect to payment of the Fees in accordance with these Product Terms and the License Agreement, Licensors may, with respect to any articles not yet published, cease (i) the author identification process, (ii) submission to the Verifying Institution of articles of Affiliated Corresponding Authors for approval according to Section 3.4.3, and (iii) publication of any Eligible Article under these Product Terms. Licensors, however, shall be free to offer to enter into separate agreements with Affiliated Corresponding Authors affected by such default for publishing services subject to payment

of any applicable article processing charge(s) by the relevant Affiliated Corresponding Author(s). For clarity, within ten business days after Licensee cures its payment default, Licensors shall recommence the activities set forth in subparagraphs (i) – (iii) above, however Licensors shall not be obliged to recommence the activities for any articles processed between cessation of activities and recommencing the activities.

3.1.5 Licensors undertake to use reasonable efforts to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication and include Eligible Authors' ORCID ID in Eligible Articles. It is the Eligible Author's responsibility to provide all necessary details in respect of its ORCID ID to Licensors. This Section does not apply to Non-Standard Journals.

3.1.6. Upon publication of an Eligible Article, Licensors will, according to its then current practices, register the article metadata on CrossRef, subject to the following conditions: (i) Licensors has sufficient rights to perform the foregoing based on its then-current contractual relationship with CrossRef at the time of publication and (ii) CrossRef accepts the specific metadata. This Section does not apply to Non-Standard Journals.

3.2 Editorial Independence

Nothing herein contained shall oblige the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or any third party to accept or publish any article submitted to Licensors by an Eligible Author. Licensee acknowledges that the selection of material to be accepted and published by Licensors or a third party in control of the publishing process is entirely at the discretion of the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or said third party. Licensee waives any claim they may have against individual(s) at the relevant journal responsible for editorial decisions of the relevant journal, or said third party in the event that the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or said third party declines to publish any material (or part thereof) submitted by an Eligible Author.

3.3 Author Identification

3.3.1 Licensors will provide the technical means for the identification of Affiliated Corresponding Authors as part of the publication process, which will be enabled by Licensors on Licensors' Platforms, as follows:

3.3.1.1 "Data Elements" means the following identifiers which may be used by Licensors to enable identification of Affiliated Corresponding Authors as part of the publication process: (i) name of the Licensee, i.e. the legal entity name, or translations or variations thereof ("Data Element Licensee Name"), (ii) e-mail domain of the Licensee ("E-Mail Domain"), (iii) the IP address(es) of the Licensee ("IP Address"), or other identifiers used by Licensors in addition to the foregoing identifiers.

3.3.1.2 Affiliated Corresponding Authors shall identify themselves by either selecting the Data Element Licensee Name, or by using one of the Data Elements E-Mail Domain or IP Address within the identification process.

This Section 3.3.1 does not apply to Non-Standard Journals. Identification of Affiliated Corresponding Authors will be handled in a manual workflow between Licensors and the publisher of the Non-Standard Journal. Licensors acknowledges a desire to integrate Non-Standard Journals into its standard workflow to the extent possible, including but not limited to the Multi-payer Model implementation in Section 3. Any academic journal that is listed on Schedule 4 as standard workflow will remain on the standard workflow.

3.3.1.3 After identifying themselves pursuant to 3.3.1.2, Affiliated Corresponding Authors shall be presented with a choice of (1) selecting Partial Coverage, (2) selecting Full Coverage, or, for Hybrid Journals only, (3) opting out of open access publishing. The open access options shall be presented more prominently than the opt-out option, with open access presented as a

default within the Licensor's workflow system. Licensor shall use commercially reasonable efforts to provide a warning to Affiliated Corresponding Authors attempting to opt out of the consequences of doing so. If the Affiliated Corresponding Author selects Full Coverage, he or she must enter a description of why he or she does not have any funding available for the APC Remainder, including a declaration that he or she is being accurate in asserting that such funding is not available.

3.3.1.4 Licensee will ensure that the Affiliated Corresponding Authors are aware of their options under the Agreement so that they can be confident in their decisions during the identification process. If an Affiliated Corresponding Author opts out of open access publishing in accordance with the process described in section 3.3.1.6, and within 48 hours of making that election the Affiliated Corresponding Author informs the Licensor in writing that he or she wishes to change such election and publish open access, the Licensor will enable the Affiliated Corresponding Author to change such election.

3.3.2 Source of Data Elements

3.3.2.1 In order for Licensor to commence providing the Publishing Services on the Commencement Date, Licensee shall have provided the Data Elements set forth in Section 3.3.1.1 (i), (ii) and (iii) to Licensor no later than 6 weeks prior to the Commencement Date of these Product Terms.

3.3.2.2 Licensee shall update Licensor with respect to any changes to such Data Elements without undue delay.

3.4 Verification

3.4.1 Licensor shall notify Verifying Institution by email each time an author is identified as an Affiliated Author.

3.4.2 Licensor shall make available to Verifying Institution all Data Elements that identified the author as an Affiliated Corresponding Author (this does not apply to Non-Standard Journals), as well as the Author's choice of Fee model, description of reason for lack of funding available for the APC Remainder, Funder Name as entered by Eligible Author at point of submission of article and funder ID, if available, and declaration related to the APC, if relevant.

3.4.3 An author will be deemed an Affiliated Corresponding Author if one or more of the following Data Element combinations, as provided by Licensee as per Section 3.3.2 above, match the Data Elements provided by the author, Licensee Name and E-Mail Domain. In such case, Licensor will continue the publishing process, and deduct the applicable APC or Licensee APC portion for such article pursuant to these Product Terms ("Auto Approval"). Sections 2.1.2, 2.1.7 (ii), 2.1.10 and 3.1.4 (ii) do not apply. The parties may agree in writing, during the Term of the Agreement, to allow additional or other combinations of Data Elements for Auto Approval.

3.4.4 In deviation to the definition of Approval Date in these Product Terms, with respect to Auto Approval only, Approval Date means the date on which Licensor has confirmed that the Data Elements related to the Eligible Author meet those as described in Section 4.2 first sentence.

3.4.5 If Licensor has identified the Affiliated Corresponding Author based on other Data Elements (which are not the combinations of Data Elements as specified in Section 3.4.2) or if the approval is related to an Eligible Article to be published in a Non-Standard Journal, Licensor will provide such to Verifying Institution. On the basis of the Data Elements specified in Section 3.3.1.1, as provided by Licensor, Verifying Institution shall confirm or deny that the author is an Affiliated Corresponding Author within 3 business days following such notification, and in the case of confirmation, shall be deemed to have ordered the Publishing Services for the respective Eligible Article. For clarity, the Verifying Institution is required to confirm that an author is an Affiliated Corresponding Author, if the conditions set forth in

this Agreement are met. In case Licensors does not receive either a confirmation or a denial within 3 business days after Licensors has notified and provided the Data Elements as specified in Section 3.3.1.1 to Verifying Institution, Licensors will send a reminder, with a 4-day grace period, which shall inform Verifying Institution that Licensors will deem the author to be an Affiliated Corresponding Author and continue the publishing process, and deduct the applicable APC or Licensee APC portion for such article pursuant to these Product Terms, if the set grace period expires without any declaration by Verifying Institution.

- 3.4.6 Pursuant to 3.4.5 the Verifying Institution will have only the option to verify that the author is an Eligible Author or not. If verified as an Eligible Author, that Eligible Author's choice of Fee model shall be accepted as entered by the Eligible Author

4, APCs

APCs charged for Eligible Articles will be determined as set forth below. The APC shall be set as of the Acceptance Date of the Eligible Article, even if the Acceptance Date and Approval Date are in different calendar years.

4.1 APCs for Springer and BMC Fully Open Access Journals

4.1.1 During the Term, increases to the 2025 Licensee Price for Springer and BMC Fully Open Access Journals will not exceed 3.5% per journal title per year ("Cap"). For Springer and BMC Fully Open Access Journals, Licensors will apply, in addition to the Cap, a 15% discount, due to the Licensee's status as a BMC Member. Title lists that retain APC prices applicable to each year shall be provided to Licensee on an annual basis to facilitate implementation of the terms of section 4.1.2 and 4.1.3.

4.1.2 If at any time during the Term the then-current list-price APC is lower than the APC to be charged under these Product Terms, the current, lower APC will be charged instead.

4.1.3 For new start Springer and BMC Fully Open Access Journals under the imprints defined in Schedule 3, the APC for the first year of the Term during which that journal is accepting articles for publication and has an APC price, shall be the list price APC for that year, minus 15%. In following years of the Term, the APC charged for that journal shall be calculated according to the mechanisms in 4.1.1 and 4.1.2 for the appropriate year.

4.2 APCs for Hybrid Journals

4.2.1 During the Term, increases to the 2025 Licensee Price for Springer Hybrid Journals will not exceed 2% per journal title per year ("Cap"). The 2025 Licensee Price for each journal is listed in Schedule 6.

4.2.2. If at any time during the Term the then-current list-price APC is lower than the APC to be charged under these Product Terms, the current, lower APC will be charged instead.

4.2.3. For new start Hybrid Journals under the imprints defined in Schedule 4, the APC for the first year of the Term during which that journal is accepting articles available for publications and has an APC price, shall be the list price APC for that year. In following years of the Term, the APC charged for that journal shall be calculated according to the mechanisms in 4.2.1 and 4.2.2 for the appropriate year.

4.3 Repository Deposit

Licensors will make the final published versions of Eligible Articles (pdf full text and xml metadata), which have been published under an Open Access License under this Agreement available for download via FTP (ftp, ftps, sftp) by Licensee on a quarterly basis. Licensors shall also use commercially reasonable efforts to establish, during the Term, an automatic feed through which said articles will be uploaded to

a central repository designated by Licensee, details to be mutually agreed between the parties. Licensors agree to discuss during the term ways in which articles by other UC affiliated authors can be made available for repository deposit.

4.4 Author Copyright Retention

Author copyright retention is in place for all primary research content published in the Springer Research journals, and for all content published via the gold OA route across Springer Nature journals (with a small number of exceptions such as where authors' employers retain copyright). Licensors will take all reasonable measures to put author copyright retention in place for subscription content published in Springer Nature-owned journals and for as many partner-owned titles as possible. Notwithstanding any terms or conditions to the contrary in any author agreement between authors and Licensors, and in addition to any rights or copyright granted to authors in such agreements, authors who are Authorized Users of Licensee ("Authors") whose journal articles ("Articles") are accepted for publication by Licensors during the Term shall retain the non-exclusive, irrevocable, worldwide, royalty-free right to use their Articles for scholarly and educational purposes, including self-archiving or depositing the Articles in institutional, subject-based, national or other open repositories or archives (including the author's own web pages or departmental servers), and to comply with all grant or institutional requirements associated with the Articles. Licensee shall use reasonable efforts to inform Authors that when undertaking such self-archiving rights, Authors should: (1) acknowledge Licensors copyright ownership (if applicable), (2) reference that the article was first published in Licensors' journal according to current citations standards, and (3) adhere to access embargoes if applicable. For the avoidance of doubt, it is the intent of the parties to this License Agreement that Licensee's Authors are third party beneficiaries of this provision of the Agreement. Nothing in this section shall eliminate or limit any other rights that Licensee or any Author may have to deposit, host or make available Articles published by Licensors. Licensee will honor access embargoes on Articles deposited in its institutional repository if instructed to do so by Authors.

4.5 Commitments in Relation to Eligible Articles and Licensors Statement Regarding Open Access Content

After the publication of Eligible Articles, Licensors shall commit to the following obligations contained in the General Terms and Conditions in relation to those articles, as if they were included in the Perpetual Access Content:

Section 4.4 (Online availability and Perpetual access)

Section 4.5 (Commitment to archiving)

Section 4.10 (Continuing support to use Content)

Section 4.11 (Commercially reasonable training)

Section 4.16 (Use on prevailing web browsers)

Licensors affirms a strong commitment to upholding industry standards for all published open access articles in all its Fully Open Access and Hybrid Journals. Licensors will continue to (i) deposit open access articles in digital preservation services, (ii) report open access articles to major discovery services, and (iii) host and support open access articles on its Platforms in the same way that it does for subscription content.

PART B – ACCESS TO CONTENT

5. Access Rights

5.1 Perpetual Access Journals: During the Term only, Licensee shall have access to the Perpetual Access Journals listed in Schedule 2: Perpetual Access Journals first published during the Term. After the Term, Licensee shall have Perpetual Access to the Perpetual Access Journals first published during the Term, subject to all the terms and conditions of this License Agreement.

5.2 Backfile Access During the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Schedule 2 that is published during the Term,, published beginning the later of (a) 1997 (b) the first date of publication or (c), the date on which Licensors first acquired publication rights.

5.3 Backfile Access to Journals that change business model to solely offering open access publication during the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Schedule 2, published beginning the later of (a) 1997 (b) the first date of publication or (c), the date on which Licensors first acquired publication rights, until the last calendar year in which the title(s) were published on a hybrid basis. . For the avoidance of doubt, to the extent that Licensee and/or certain Participating Institutions have Perpetual Access rights for certain years to certain of the Content of the Perpetual Access Journals through prior agreements or previous paid subscriptions, nothing herein shall be deemed to diminish or otherwise modify those rights.

6. Cessation of Publication / Transfer/Print

6.1 If Licensors publishing rights to a Perpetual Access Journal are transferred to another publisher, Licensors will use best efforts to provide Licensee with access to the Content of the Perpetual Access Journal licensed under these Product Terms either (a) online on the Platform, (b) online on the new publishers website, or (c) offline by providing the same on a digital storage medium. In case of (c) above, use of the Perpetual Access Journal shall be subject to the terms of this License Agreement, except for Sections 4.3 and 4.4 of the General Terms and Conditions.

6.2 In the event that during a calendar year of the Term, Licensors acquires a journal from a third party publisher (the "**Take-Over Journal**") or initiates a new journal (the "**New Start Journal**"), Licensee will obtain access (and, for Content in the relevant journal published during the Term, perpetual access rights) to the Take-Over Journal or the New Start Journal for no additional cost. This clause shall apply only to Springer journals, Adis journals, Palgrave journals, and hybrid academic journals on nature.com, and shall not apply to material acquisitions such as acquisition of an entire imprint, which will require good faith discussions between Licensee and Licensors to find the appropriate method to manage those titles.

6.3 In case Licensee orders the print versions of its Perpetual Access Journals from Licensors or from an agent in addition to its e-only-version available under this License Agreement, Licensee is entitled to a discount of 75% off the list price of the print version, excluding postage and handling fee ("Deep Discounted Print" or "DDP"). The order shall include the indication that Licensee orders the print versions of the Perpetual Access Journals under the DDP, otherwise Licensee is not entitled to any refund from Licensors.

7. Reading Fee

The Reading Fee for 2025 is set at 

The Reading Fee shall be adjusted by each year as necessary to cover cost sharing for increased open access uptake as covered in Section 8.2

PART C: FEE CONTROL MECHANISMS

8. Fee Control Mechanism Principles

Fee Control Mechanisms

There shall be 2 mechanisms as part of the Agreement covering both a Licensee (library) spend corridor, and a shared cost-benefit scenario.

8.1 Licensee (Library) Spend Corridor

8.1.1 Corridor is set at -3.5%/+3.5% of the prior year spend and shall reset each year based on prior year spend. Prior year spend shall become the 0% point on the corridor for the following year. Adjustments shall only occur within the corridor parameters. For clarity, the corridor spend calculation is based on prior year Total Licensee Spend.

8.1.2 For the avoidance of doubt, Licensee will not be liable for any costs incurred by publishing Eligible Articles above corridor spend for that year, and Licensors will not be liable for credits below the minimum corridor spend amount. In addition, the author experience will not be affected by the reaching of the upper corridor.

8.2 Cost sharing for increased open access uptake

8.2.1 Licensee and Licensors agree to share any increased cost of publishing resulting from a year-on-year increase in the Author Uptake level, set as a percentage.

8.2.1.1 Author Uptake shall be defined as the percentage of Eligible Articles in Hybrid Journals which are made Open Access in a given year

8.2.2 Cost sharing for increased uptake will be determined each year according to the percentage of eligible articles in Hybrid Journals where the author has not opted out of open access, and will be applied as a corresponding reduction to the Reading Fee

8.2.2.1 At the start of each year of the term, Author uptake threshold is set based on the uptake level in Hybrid Journals in the previous year; for 2025 the threshold will be set at 67%.

8.2.2.2 At the end of each year of the term, the total number of eligible articles in Hybrid Journals will be multiplied by the percentage threshold to calculate an article-level threshold for the year.

8.2.2.3 If the actual number of Eligible Articles in Hybrid Journals which are made Open Access is greater than the article-level threshold, then the difference shall be the number of articles to be cost shared.

8.2.2.4 The number of articles to be cost shared is multiplied by the average APC across all Eligible Articles in Hybrid Journals which are made Open Access to calculate the total amount to be cost shared. Half of the total amount to be cost shared is subtracted from the Reading Fee in the final end-of-year calculation

8.2.2.5 Nothing in this cost share structure shall obligate Licensee to pay more than upper limit of the corridor spend (+3.5%) or less than the lower limit of the corridor spend (-3.5%) as described in section 8.1 following the final reconciliation payment.

8.2.2.6 No maximum or minimum limits are applied to the number of Eligible Articles that can be published or for which the APC Remainder can be charged to the Eligible Author.

8.2.2.7 If no new Open Access agreement has been signed by December 31st of the final year of the Agreement, articles for which authors have completed the process of self-identification as an Affiliated Corresponding Author and who have selected the Full Coverage or Partial Coverage Option, but which have not yet been verified by the Verifying Institution by the date of Termination shall be made available for verification by Licensee through January 15 of the following year and will be included in the Eligible Article count for the final year of the Agreement

9. Non Commercial Topics

During the course of negotiation of this Agreement, Parties have engaged in conversations about several topics not directly connected to the commercial model outlined in this Agreement. Parties commit to drafting and signing a side letter in 2025 memorializing the outcomes of these conversations.

PART D

Schedule 1: Payment of Fees and Invoicing for Publishing Services

1. Payment of Fees

1.1 The Fee(s) for Eligible Articles shall be paid by Licensee.

Payments for the Fully Open Access Spend and the Hybrid Spend will be aggregated for bulk payment, rather than paid transactionally at the time of publication, and will be combined with payment of the Reading Fee. The payment schedule shall be as follows, but may be modified by mutual agreement between the parties:

Annual initial primary payment will be made by December 15 of prior year, with a final reconciliation payment to be issued by February 15 of the current year. The sum total of both payments shall be no higher than the maximum +3.5% set by corridor spend and no lower than the minimum -3.5% set by corridor spend as detailed in Section C

The initial payment for 2025 will be 95% of the 2024 spend. For the following years, the initial payment will be 96.5% of the prior year Hybrid Spend

Product Terms

Single Title Journal Subscriptions and Legacy Sets

(Springer, Adis, Palgrave Macmillan, Academic journals on nature.com)

1. Term and Access Rights

- 1.1 The Term shall begin on January 1st, 2025 (the “Commencement Date”) and shall end on December 31st, 2027.
- 1.2 Perpetual Access Journals: During the Term, Licensee shall have access to the Perpetual Access Journals listed in Appendix A first published during the Term. After the Term, Licensee shall have Perpetual Access to the Perpetual Access Journals first published during the Term, subject to all the terms and conditions of this License Agreement.
- 1.3 Access Only Journals: During the Term only, Licensee will be granted access to the Access Only Journals listed in Appendix A first published during the Term.
- 1.4 Backfile Access During the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Appendix A published beginning the later of (a) 1997 (b) the first date of publication or (c), the date on which Licenser first acquired publication rights.

2. Cessation of Publication / Transfers / Take-over

- 2.1 Cessation of Publication of Perpetual Access Journals During the Term If Licenser ceases to publish (whether because Licenser ceases to have publishing rights or because Licenser ceases to publish those Perpetual Access Journals), or changes the publishing model of a journal to solely offering open access publication for 3% or more of the Perpetual Access Journals during any calendar year of the Term, upon Licensee’s written request, Licenser will, at Licenser’s sole option, offer to Licensee:

- (1) substitute such subscribed journal with another journal(s) of equivalent value (based on last year of publication list price of the discontinued subscribed journal and the replacement journal(s)), or
- (2) a reduction or credit of the License Fee in the amount of the value of the discontinued subscribed journal, taking into account Lawrence Berkeley National Laboratory subscription history for the discontinued subscribed journal.

The value to be applied for additional Content or a credit will be determined by Licenser in good faith, taking into account factors which may include, without limitation, number of articles, number of pages, impact factor, usage factor, and list price of the Content in question, or any other formula including any or all such factors that allows Licenser to calculate the value of the lost Content as a percentage of the Perpetual Access Journals under the License.

- 2.2 Transfer of Publishing Rights to Perpetual Access Journals If Licenser’s publishing rights to a Perpetual Access Journal are transferred to another publisher or entity at any time during or after the Term, Licenser will use reasonable efforts to provide Licensee with Perpetual Access to the Content of that Perpetual Access Journal published by Licenser during the Term, either (a) online on the Platform, (b) online on the new publisher’s website, or (c) offline by providing the same on a digital storage medium. In case of (c) above, use of the Perpetual Access Journal shall be subject to the terms of this License Agreement, except for Sections 4.3 and 4.4 of the General Terms and Conditions.

If Licensee subscribes to one or more journals from a third-party publisher which are acquired by Licenser during the Term (the “Take-Over Journals”), the Take-Over Journals may be added, by mutual consent, to this License Agreement after expiration of Licensee’s subscription with the third-party publisher, to the extent Licenser’s acquired rights in the Take-Over Journals permit. The current year list price of the Take-Over Journals will be added to the License Fee.

Product Terms
Text and Data Mining

1. Term

For Access Only products, the Term of these Text and Data Mining Terms shall be concurrent with the Term of the relevant Product Terms indicated in Section 2 below. For Continuing Access and Archive products, the Term of these Text and Data Mining Terms shall begin on the first day of the Term of the relevant Product Terms indicated in Section 2 below, and shall continue subject to all terms and conditions of this License Agreement.

2. Content

Content for the purposes of these Product Terms is the Content licensed under the following Product Terms of this License Agreement: All Product Terms of this License Agreement.

3. TDM License

3.1 Definitions

- 3.1.1** **"Text and Data Mining" ("TDM")** means (i) performing automated searches, selection of content, and structured analyses of content including data embodied therein, (ii) the automated sorting, parsing, addition or removal of linguistic structures, and the selection and inclusion of discrete parts of content into another form for purposes of classification or recognition of relations, patterns, and associations, and (iii) the automated extraction, alternative representation or translation, expression or discussion of any extracts from mined content, whether in the form of a direct extraction or a representation in any form.
- 3.1.2** **"TDM Materials"** means the materials, data and information created for or during TDM containing substantial reproduction of the Content in whole or in part and/or any data which allows re-constitution of Content.
- 3.1.3** **"TDM Output"** means the data and information which is the result of any TDM, excluding, however, any substantial reproduction of the Content in whole or in part and/or any data which allows re-constitution of Content and/or TDM Materials.
- 3.1.4** **"Full-Text"** refers to Content items provided in an XML format (typically JATS for Journal Articles and BITS for Book Chapters) that includes both the associated metadata as well as the complete text from the body of the Content item.
- 3.1.5.** **"Cloud Solutions Provider"** means Amazon Web Services (AWS), Google Cloud Platform (GCP) and Microsoft Azure or any additional cloud solutions of Licensee with prior written approval by Licensor.

3.2 TDM Rights

TDM rights granted herein should be read consistently with and no more restrictive than the terms applicable to AI Tools set forth in Attachment 1.

Licensor hereby grants Licensee and its Authorized Users the following rights:

- 3.2.1** the right to download (manually or through automated means) and/or extract information from the Content for the purpose of TDM while using reasonable information security standards, and to perform TDM on such Content and/or TDM Materials for the duration of a specific TDM project.

3.2.2 the right to store electronic copies of the Content and the TDM Materials to the extent reasonably necessary to ensure efficient use by Authorized Users in connection with their work on a TDM project. Consistent with the standards of section 5.1 of the General Terms and Conditions incorporated herein, Licensee shall inform Authorized Users that any Content downloaded for TDM and TDM Materials containing Full-Text Content shall not be retained after the end of the TDM project.

3.2.3 the right to make the TDM Output available to third parties, subject to the limitations set forth in these Product Terms.

4. Prohibited uses

The prohibited uses applicable to Licensee's use of the Content set forth in Section 3 of the General Terms and Conditions shall apply to the license grant hereunder. For the avoidance of doubt, for purposes of Section 3.1.4, one request per second is not deemed likely to burden the Platforms. Licensee and its Authorized Users may not use, or allow other third parties to use the Content, any TDM Material or any TDM Output to develop, train, program, improve, and/or enrich any generative artificial intelligence systems except as otherwise provided for in this agreement in Attachment 1 (pertaining to Artificial Intelligence). Without limiting the foregoing, Licensee and its Authorized Users may not:

- (i) access or use the Content and/or TDM Materials for any purpose inconsistent with the General Terms and Conditions incorporated herein, or other than to conduct TDM or verify TDM results,
- (ii) create derivative products or services that would compete with Licensor or Licensor's Affiliates products or services, or otherwise commercially use or allow commercial use of the TDM Output, including any use of TDM Output in, for or in connection with generative artificial intelligence systems,
- (iii) allow a third party to access or use any Content and/or TDM Materials,
- (iv) perform TDM for a third party, or
- (v) store, or permit storage of, Content or TDM Materials on any server absent reasonable security measures. For clarity, the foregoing shall not be deemed to limit Licensee's rights in Content granted in other Product Terms under this or any other License Agreement.

This Section 4 shall survive any expiration or termination of this License Agreement, howsoever arising.

5. Security, Formats and Delivery Mechanisms

- 5.1 Licensee will (i) use reasonable measures to protect the security of the Content downloaded for TDM purposes and the TDM Materials in its possession or control. (ii) at Licensor's request, permit Licensor to review Licensee's network vulnerability assessments, security audit report, security plan, maintenance and security patch process, and maintenance and patching records, and (iii) require that any Authorized Users that download the Content for TDM purposes onto personal devices not in the possession or control of Licensee ensure that such devices employ commercially reasonable security measures.
- 5.2 Licensee will immediately notify Licensor of any breach or suspected breach of security (including without limitation any unauthorized use, disclosure or acquisition of or access to the Content) pursuant to this License Agreement (each a "security breach") of which Licensee becomes aware. In the event of an actual or suspected security breach, or in the event of repeated or routine infringement of intellectual property rights in the Content as a result of internally storing of the Content under the terms of these Product Terms, Licensor may, by notice, effective immediately, suspend the right to internally store the Content until all security problems have been resolved to the Licensor's reasonable satisfaction. Licensee agrees that any breach of this clause may cause immediate and irreparable harm to the Licensor for which money

damages may not constitute an adequate remedy. Therefore, Licensee agrees that the Licensor may obtain specific performance of this License Agreement and/or injunctive or other equitable relief for any such violation, in addition to remedies at law, without proof of actual damages and without the necessity of posting a bond.

- 5.3 Sections 5.2 – 5.3 of the General Terms and Conditions shall apply with respect to the TDM Materials.
- 5.4 Usage of personal data contained in the Content may be subject to applicable data protection laws. Licensee must ensure that any intended use is in compliance with such laws.
- 5.5 Licensor does not make any warranty nor give any assurance as to the suitability or availability of the Platforms for carrying out TDM.

6. Breach, Termination, and Use of Cloud Solutions Providers

- 6.1 Breach: If Licensee breaches its obligations under these Product Terms, Licensor may, in its sole discretion, terminate either (i) this Text and Data Mining License only or (ii) the License Agreement, in each case in accordance with Section 7 of the General Terms and Conditions. In addition to, and without prejudice to any contractual rights and/or remedies under applicable law, Licensor retains the right to suspend access to the Content in the event that Licensor determines, in its reasonable judgment, that Licensee or its Authorized Users are in breach of any of the conditions of these Product Terms.
- 6.2 Removal of locally-loaded copies of Content downloaded for TDM and/or TDM Materials: Upon termination of the Text and Data Mining License under Section 6.1 above or upon expiration or termination for any reason of the rights granted under the License Agreement, Licensee shall (i) procure the destruction of any copies of the Content and/or TDM Materials which may be locally loaded and (ii) use reasonable efforts to ensure that its Authorized Users delete or destroy Content on their personal electronic devices and physical storage mediums. Upon Licensor's request, no later than 30 days after such termination, Licensee shall provide a statement of destruction signed by an authorized officer of Licensee.
- 6.3 If Licensee uses a Cloud Solutions Provider for any purpose under these Product Terms, the obligations with respect to Licensee will apply accordingly to that Cloud Solutions Provider, except for the payment of any fees. Licensee shall remain responsible for compliance of the Cloud Solutions Provider with respect to Licensee's obligations under these Text and Data Mining Product Terms
