**Author Rights Clause To Be Added to CDL Springer Agreement
rev. 2016**

Authors' Rights To Use Their Own Work.

Notwithstanding any terms or conditions to the contrary in any author agreement between authors and Licensor, authors who are Authorized Users of Licensee ("Authors") whose journal articles ("Articles") are accepted for publication by Licensor during the Term shall retain the non-exclusive, irrevocable, worldwide, royalty-free right to use their Articles for scholarly and educational purposes, including self-archiving or depositing the Articles in institutional, subject-based, national or other open repositories or archives (including the author's own web pages or departmental servers), and to comply with all grant or institutional requirements associated with the Articles.

For the avoidance of doubt, it is the intent of the parties to this License Agreement that Licensee's Authors are third party beneficiaries of this provision of the Agreement. Nothing in this section shall eliminate or limit any other rights that Licensee or any Author may have to deposit, host or make available Articles published by Licensor. Licensee will implement access embargoes on Articles deposited in its institutional repository if instructed to do so by Authors.

Definitions:

Author: An author of a work published by Licensor who is an Authorized User of the Licensed Materials.

Articles: The author's accepted manuscript version (after peer review and including revisions from the peer review process but before copy-editing and final publication) of any work by an Author that is accepted for publication in a journal published by Licensor.

Scholarly and educational purposes: Purposes encompassing teaching, research, and institutional needs, including but not limited to the right to (a) use, reproduce, distribute, perform, and display the Articles in connection with teaching, conference presentations, and lectures; (b) make full use of the Articles in future research and publications; (c) update or revise the Articles in whole or in part for later publication; (d) meet requirements and conditions of research grants or publishing subventions provided by government agencies or non-profit foundations, and; (e) grant to the Author's employing institution some or all of the foregoing rights, as well as permission to use the Articles in connection with administrative activities such as accreditation, mandated reports to state or federal governments, and similar purposes. In all cases, the Author and/or the Author's employing institution will be expected to provide proper citation to the published version.

Repositories or archives: Open-access digital repository services such as those provided by the Author's employing institution, an academic consortium, a discipline-based entity, or a governmental funding agency.
