

**APPENDIX H – LICENSED ONLINEBOOKS – One-Time Purchase**

Wiley InterScience OnlineBooks are the electronic (online) editions of Wiley books to which the Licensee has access under this License. They may include tables of content, abstracts, full text and illustrations, data tables and additional content not included in the print versions of the books.

**Archiving Rights:**

After termination of the License, Wiley will provide the Licensee with access to the full text of the Licensed OnlineBook edition. Wiley, in its discretion, will either continue online access to the same material on Wiley's server or provide an archival copy in the electronic medium selected by Wiley, at a cost-based fee agreed to by both parties.

By providing such access Wiley grants to the Licensee a nonexclusive, royalty-free, perpetual license to use such material in accordance with the restrictions on use specified in Paragraph C of the License Agreement, and the other relevant provisions of the License Agreement which shall survive any termination of the Agreement.

**Pricing:**

OnlineBook one-time purchase pricing will be calculated based on the US list price at the time of purchase of the hardcover version of each title selected. The Licensee must initially select a minimum of 20 titles. Titles may be subsequently added in any amounts by either contacting the appropriate Account Manager or by adding titles electronically via the Licensee's customer administration page.

| <b>AUTHOR / EDITOR</b> | <b>UC RIVERSIDE: 157 OnlineBooks TITLES</b>  | <b>2005 LIST PRICE</b> |
|------------------------|--|------------------------|
| 1 Koch                 | A Chemist's Guide to Density Functional Theory   | \$85                   |
| 2 Kettrup              | Analyses of Hazardous Substances in Air, Volume 5  | \$130                  |
| 3 Kettrup              | Analyses of Hazardous Substances in Air, Volume 6  | \$130                  |
| 4 Wang                 | Analytical Electrochemistry  | \$100                  |
| 5 Blaser               | Asymmetric Catalysis on Industrial Scale   | \$190                  |
| 6 Krauss               | Biochemistry of Signal Transduction and Regulation                                       | \$95                   |
| 7 Lawrence             | Environmental Impact Assessment  | \$105                  |
| 8 Stlen                | Chemical Thermodynamics of Materials   | \$140                  |
| 9 Bauer                | Common Fragrance and Flavor Materials  | \$160                  |
| 10 Young               | Computational Chemistry  | \$95                   |
| 11 Newkome             | Dendrimers and Dendrons  | \$185                  |
| 12 Koolen              | Design of Simple and Robust Process Plants   | \$210                  |
| 13 Pontius             | Drinking Water Regulation and Health   | \$160                  |
| 14 Izutsu              | Electrochemistry in Nonaqueous Solutions   | \$175                  |
| 15 Dunnivant           | Environmental Laboratory Exercises for Instrumental Analysis and Environmental Chemistry | \$80 ...               |
| 16 Cantor              | Genomics   | \$150                  |
| 17 Carraher            | Giant Molecules  | \$120                  |
