Discovery and Delivery Request Flow

Discovery Systems

Patron discovers and requests an item...

- **Melvyl**
- **UC Campus Catalog**
- **External system** (e.g., Google Scholar or PubMed)

Delivery Systems

...the request is routed to a delivery system...

- **UC-eLinks** (link resolver)
- **External host** (e.g., publisher, aggregator, or repository)

...and delivered.

- **Request** (InterLibrary Loan)
- **MyILL** (ILL patron interface)

- Item available through ILL
- Item not available to campus patrons
- Electronic resource

Delivered electronically

Delivered as a physical item or scan
